

# Advisor Dashboard: Meal Complaint Incident

This slide shows the main advisor dashboard for the Space Flight Experience Management system. The advisor is reviewing a VIP customer case involving Max Mustermann, who reported disappointing in-flight meal quality on an upcoming flight. The screen combines customer details, incident management, AI-generated recommendations, and business impact metrics such as revenue risk and priority score. The idea behind the slide is to demonstrate how advisors can quickly understand customer problems, prioritize important cases, and take recommended recovery actions directly from one centralized interface.

# Advisor Dashboard: Reassigned Incident

This slide presents a similar advisor dashboard, but the incident has now been reassigned. The customer complaint and supporting information remain visible, while the queue reflects that responsibility for the case has changed. The purpose of this slide is to show workflow coordination and task reassignment within the customer support process. It demonstrates how incidents can move between team members while maintaining visibility and continuity.

# Advisor Dashboard: Overview of All Customers

This slide shows the advisor dashboard with an overview of all customers rather than focusing only on incidents. The advisor can see customer profiles, preferences, customer value information, payment details, open incidents, and internal notes. Advisors are also able to add and save notes for future interactions. The idea behind this slide is to demonstrate a centralized customer management view where advisors have access to all relevant customer information in one place, allowing them to provide more personalized support and maintain long-term customer relationships.

# Chief Service Officer Dashboard: Onboarding Problems

This slide introduces the dashboard for the Chief Service Officer role. The case displayed involves a customer who could not complete onboarding during the last three weeks. The dashboard includes incident queues, revenue impact indicators, and communication actions such as sending emails. The purpose of this slide is to demonstrate how senior operational managers can oversee high-priority service issues across the company and intervene when customer journeys are at risk.

# Chief Service Officer Dashboard: Advisor Absence

This slide focuses on an internal operational issue rather than a customer complaint. The system identifies that an advisor is absent and recommends hiring a replacement advisor. The screen still uses the same dashboard structure but shifts the focus toward workforce management and operational continuity. The idea behind this slide is to show that the platform can also monitor internal organizational risks that may negatively affect customer experience.

# Medical Eligibility and Recommendation Process

These slides demonstrate how the platform manages customers who are medically not eligible to participate in a flight. The system provides advisors with three different recommendation options aimed at helping improve the customer's health condition over time. The advisor selects which recommendation to send to the customer first, such as consulting a cardiologist, improving lifestyle habits, or focusing on nutrition and overall well-being. If the customer decides not to follow the first recommendation, the advisor can send the second or third option instead. The slides also include AI-generated email drafts that communicate these recommendations in a professional and empathetic way. The overall idea behind these slides is to show a guided and personalized communication workflow that supports customer care while prioritizing safety and medical responsibility.

Dear Max Mustermann,

Thank you for completing your medical evaluation and for your interest in our flight program.

After careful review by our medical team, we regret to inform you that you are currently **not eligible** to participate in a flight based on the provided health information.

This decision has been made with your safety and well-being as our highest priority.

We understand this may be disappointing.

We recommend consulting your cardiologist to discuss whether your condition may improve with treatment or management over time.

If your medical circumstances change in the future, we would be happy to reassess your eligibility.

We sincerely appreciate your interest and understanding.

Kind regards,

Your ORBIT Team

# Customer Journey Timeline

This slide introduces the customer journey view within the system. The journey timeline visualizes every stage of the customer experience, including booking, medical check, onboarding, shuttle transfer, boarding, flight, landing, and feedback collection. The purpose of the slide is to demonstrate how the company can monitor the complete customer lifecycle and track progress through all operational touchpoints.

# Customer Journey Overview with Feedback and Advisor Notes

This slide combines the customer journey overview with detailed feedback information and a dedicated notes section for advisors. The screen displays the customer's current flight information, preferences, open incidents, satisfaction scores, and detailed feedback categories such as flight quality and meal experience. Advisors can also add and save internal notes to support future interactions and provide more personalized service. The idea behind this slide is to create a complete customer overview that combines operational data, customer sentiment, and advisor collaboration within a single interface.

# A Special Upgrade for Your Upcoming Booking

Dear Max Mustermann,

Welcome back, and thank you for choosing us once again.

We truly value your continued trust and loyalty.

We noticed that for your upcoming booking you selected our Gold package. As a returning customer who has previously enjoyed VIP status with us, we are pleased to inform you that we have automatically **upgraded** your current booking to **VIP** at no additional cost.

This upgrade reflects our appreciation for your loyalty and ensures that you continue to receive the premium experience you are accustomed to. If there is anything further we can arrange to make your journey even more enjoyable, please do not hesitate to let us know. We are always here to assist you.

We look forward to welcoming you again soon.

Warm regards,

# Medical Evaluation

## Results

Dear Max Mustermann,

Thank you for your continued interest in our flight program and for taking the time to review our previous recommendation.

We understand that making lifestyle adjustments can be challenging, and we respect your personal decisions. However, we would like to reiterate that our guidance is based solely on ensuring your safety and supporting your long-term well-being.

Given your current health status, participation in the program still presents a considerable risk. For this reason, we must maintain our decision at this time.

We recommend adopting a heart-conscious lifestyle supporting your overall well-being. If your medical circumstances change in the future, we would be happy to reassess your eligibility.

We sincerely appreciate your interest and understanding.

Kind regards,

# Our Apologies and a Special Gesture for You

Dear Max Mustermann,  
We sincerely apologize for your recent experience with our food service.

Providing high-quality meals and ensuring our customers' satisfaction is always our top priority, and we regret that we did not meet your expectations this time. While we continuously strive to deliver the best possible experience, we understand that mistakes can occasionally occur. Please be assured that your feedback is taken seriously and helps us improve our standards.

As a gesture of our apology and appreciation for your loyalty as a valued Gold customer, we would like to offer you a special arrangement. For your next journey, we are pleased to provide you with a pre-paid table reservation at a high-class restaurant on the day before your flight.

We hope this experience will reflect the level of quality and care you rightfully expect from us. Our team will be happy to assist you with the reservation details at your convenience. Thank you for your understanding and continued trust.

We look forward to serving you better in the future.

Warm regards,
